MEDIA VIOLENCE- HANDOUT 5

The goal of this workshop on media violence is for teachers to not only learn ways to reduce the impact of media violence on the lives of young children, but also to return to school and classroom and act to make a difference in the lives of young children. Please think about what you have learned, and what your class is developmentally ready to learn, about media violence. Use this form to create an action plan for yourself to help achieve your media-violence reduction goal. (If you want to commit to more than one goal, ask the workshop leader for additional forms.) Thank you ahead for your time in working to protect our country's greatest resource: our children!
